Customer success and cloud transformation leader with 15+ years driving secure digital transformation, technical strategy, and cross-functional execution across public sector, healthcare, and regulated industries. Proven ability to lead and develop high-performing technical teams, shape competitive strategy, and align executive stakeholders around Azure, Microsoft 365, security, and AI solutions. Hands-on builder with full-stack development experience across cloud-native apps and AI integrations, bringing practitioner credibility to team leadership and solution design.

EXPERIENCE

Microsoft — US State, Local & Education (SLED)

Mar 2022 – Present

Director / Principal Customer Success Account Manager

- Serve as team lead for a five-member CSAM organization supporting the State of New Jersey, coaching individuals, managing escalations, and driving execution consistency across complex, matrixed engagements.
- Manage a $4M public sector portfolio, consistently achieving top-tier results in satisfaction, renewal attainment, and secure cloud adoption aligned to mission-critical priorities.
- Define and execute cross-workload technical strategy across Azure, M365, Dynamics, security, and AI, orchestrating engineering, support, specialist, and partner resources to accelerate adoption and mitigate risk.
- Coach team members on executive communication, security posture, compliance strategy, and AI adoption while removing blockers across ATU, STU, and engineering teams to establish scalable escalation patterns.
- Spearheaded M365 Copilot rollout across the State of New Jersey via multi-team workshops, community calls, and readiness assessments, positioning Microsoft as a strategic AI innovation partner.

East Greenwich Junior MBA Program

Sep 2025 – Present

Founder / Program Lead

- Designed and launched a multi-week entrepreneurship and financial literacy program for middle school students, developing curriculum and leading delivery in collaboration with educators, local business leaders, and high school mentors.
- Partnered with community educators and business leaders to bring real-world financial and entrepreneurial concepts into the classroom, bridging academic learning with practical application.
- Organized a Shark Tank-style capstone event ("Hornet's Nest") where student teams pitched original business ideas to a panel of judges, culminating the program with a live competitive pitch experience.

Microsoft — US Healthcare Services

Jul 2017 – Mar 2022

Senior Customer Success Account Manager

- Managed a $2.1M portfolio of Unified Support agreements for healthcare organizations, aligning cloud strategies with regulatory, security, and patient care priorities.
- Achieved 246% renewal attainment through strategic account growth and deepening executive relationships.
- Led a Get-to-Green recovery plan for a nationally recognized cancer center's telemedicine program, enabling an on-time go-live in 2021.

Principal CSAM · Microsoft

Microsoft — US SLED & Healthcare

Dec 2015 – Jul 2017

Technical Account Manager

- Managed a $600K portfolio of Microsoft Premier accounts across state and local government, K-12, higher education, and healthcare sectors throughout the Northeast, delivering proactive support and strategic guidance to mission-driven organizations.
- Enabled public sector clients to maximize Microsoft investments by aligning support strategies with mission delivery, regulatory mandates, and digital modernization goals, with a focus on secure and compliant cloud adoption.
- Built trusted relationships with IT leaders across diverse public sector verticals, serving as a go-to advisor on platform adoption, compliance readiness, and support optimization.

Lockheed Martin — Mission Systems and Training

Jan 2009 – Nov 2015

Senior Subcontracts Manager

- Managed $114M+ in subcontracts for U.S. Navy and Air Force programs, negotiating strategic sourcing agreements that drove $12M+ in cost savings while maintaining delivery timelines and compliance.
- Directed global supply chain partners to ensure on-time, quality delivery of radar systems to U.S. Navy and Air Force programs.
- Served as internal advisor on International Traffic in Arms Regulations (ITAR) and other compliance frameworks, supporting program teams on export control requirements.

Lockheed Martin — Operations Leadership Development Program

Jan 2007 – Jan 2009

Rotation Program — Engineering, Quality & Manufacturing

- Held rotational leadership roles across engineering, quality, and manufacturing on U.S. Navy defense programs, including the Aegis Combat System and autonomous undersea vehicles.
- Managed a cross-functional team during the manufacturing rotation, overseeing daily operations, coordinating schedules, and driving process improvements to support mission-critical defense deliverables.

EXTRACURRICULAR

- Co-Founder, Cutting Edge Laser Works Studio — Managing client relations, production timelines, and product quality for a custom laser engraving business, delivering tailored solutions to a diverse clientele.
- Co-led the inaugural auction at the 13th Annual Federal Give Golf Classic (Oct 2024), raising $30,000 through competitive bidding and unique donations for St. Jude Children's Research Hospital, contributing to the event's $145,000 total.
- Microsoft Global Hackathon Participant and Award Winner (2019-2025), leading and contributing to multiple award-winning initiatives focused on accessibility, maternal health, and law enforcement collaboration using Azure and AI technologies.
- Alumni, INROADS — Philadelphia Affiliate.
